

# 3M™ Circulation Accessories

- a Bookcheck Unit Model 942** This unit saves time and space while helping to ensure reliable processing. It effectively desensitizes and resensitizes Tattle-Tape™ Security Strips on print materials, CDs and DVDs. It also features an intuitive interface, ergonomic design and injection molded plastic for durability. *Model 942 is UL-certified. Meets the WEEE and RoHS Directives.*
- b Bookcheck Unit Model 943** Includes all Model 942 functionality and adds a barcode scanner, allowing interface with the library ILS and enabling both check-in/checkout and security strip processing in one easy step. *Model 943 is UL-certified. Meets the WEEE and RoHS Directives.*
- c Desensitizer Model 930** This fast, efficient device adapts to virtually any checkout configuration and is ideal for high-volume checkout-only operations. It safely desensitizes Tattle-Tape™ Security Strips on print materials and CDs. *Model 930 is UL-certified.*

- d Resensitizer Model 764** This electrical portable unit fully resensitizes Tattle-Tape™ Security Strips on print materials and CDs, ensuring a fully secured collection. Print materials are resensitized in one pass, CDs in two passes. A green light signals that the unit is operating. *Model 764 is UL-certified. Meets the WEEE and RoHS Directives.*
- e The Disc Media Manual Locker** An effective way to enhance the security for your DVDs and CDs. Apply a 3M Tattle-Tape strip to the inside of a DiscMate case. After desensitizing at checkout, use the locker to open the case. When items are returned, simply glide the case through the locker to re-lock the case, and then resensitize the item.
