

3M™ Staff Workstation 946

Improved workflow efficiency and ergonomics with RFID

This timesaving workstation combines item identification and security into a single operation. With its flexible design for improved ergonomics, the workstation improves efficiency and increases productivity by processing both barcodes and RFID tags at check-out and return. The workstation can also perform barcode-to-RFID conversions for new acquisitions and smaller scale collections. The 'Case Set' feature enables you to identify if the case and the item match without opening the case,

reducing handling time. The verifier light confirms the presence of a sensitised 3M™ Tattle-Tape™ Security Strip. Best of all, with RFID the workstation won't damage or erase sensitised materials, such as videos and cassettes.

Easy to use

- Combines RFID item identification and Tattle-Tape™ security into one operation
- Performs check-in or check-out in one step
- Processes barcodes and 3M™ RFID tags
- Enhanced design which helps reduce false alarms
- Safely processes all media types with RFID

Features

- RFID 'Case Set' feature saves time by reducing handling
- Verifier light confirms presence of Tattle-Tape™ Security Strip
- Flexible design for improved ergonomics

- Synchronised keyboard hot key feature allows simultaneous mode selection (or check-out) for the LMS and staff workstation
- Visible indication if system is down
- Performs barcode-to-RFID conversions

3M Tag Data Manager

- Freedom to move to ISO Tag Data Standard in the future
- Empowers the 3M™ RFID System to read country specific data formats (Danish, Dutch, Finnish and French)

Dimensions

• Head Dimensions

327.4mm x 406.0mm x 416.1mm
(12.9"d x 16.0"h x 16.4"w)

• Electronics Chassis

304.8mm x 63.5mm x 279.4mm
(12"d x 2.5"h x 11"w)

Energy Profile

- Reader
4.0/2.0 A, Single Phase
100/120 or 200/240 VAC
50-60 Hz

Weight (Approximate)

- Head Weight
12Kg (24lbs)
- Electronics Chassis
1.8Kg (4lbs)
